PROGRAM EDUCATIONAL OBJECTIVES

Within a few years of graduation, we expect alumni of our program to be applying the skills, knowledge and values they have learned at Marquette University to solve problems and to effect positive changes in a complex world. Specifically, our graduates shall:

1. Demonstrate peer-recognized expertise to solve meaningful problems in computing, technology, and other fields, as employees in industry or government, students seeking advanced degrees, or merely as engaged citizens;
2. Demonstrate commitment to teamwork, communicating and collaborating effectively with colleagues, clients and those in other fields;
3. Demonstrate engagement in professional, legal, ethical, and leadership responsibilities in their profession and in their community; and
4. Demonstrate adaptability to evolving technology and workforce needs through continued learning to become a lifelong endeavor, especially in the computing realm.
