

**"All the Wrong Turns, the Stumbles and Falls That Brought Me
Here – the Journey of a Medical Imaging Student"**

Dr. Paul Song

Staff Software Engineer, GE Healthcare

Tuesday, March 22, 2022

2:00 – 3:00 p.m. Olin 202

Reception in Olin 204 3:00 – 3:30 p.m.

The presentation discusses the education, experiences and choices made by a medical imaging graduate student to land a job at Samsung and General Electric. It will cover both technical and non-technical aspects of becoming and working as a software engineer for a world-leading medical imaging systems manufacturer. The topics will include my graduate research work in the field of medical imaging, software engineering practices, working with multinational teams, and things that I may have done differently if I had another chance at school.

Dr. Paul Song graduated from the University of Iowa in 2017 with a PhD in Electrical and Computer Engineering. Dr. Song is currently a software engineer at GE Healthcare. Previous to his current role, he was a Research Engineer at Samsung Medison in Seoul, South Korea.
