

SPRING 2018 SEMINAR SERIES

Integrative Neuroscience Research Center: Current Seminar Series

Date	Speaker	Title
Tuesday, February 20 th	<u>Jeff Tasker, Ph.D.</u> Neuroscience Program School of Science and Engineering Tulane University	“Stress Desensitization of the Noradrenergic Activation of Hypothalamic CRH Neurons via Internalization of Adrenoreceptors”
Tuesday, February 27 th	<u>Alfonso Araque, Ph.D.</u> Department of Neuroscience University of Minnesota	“Circuit-Specific Synaptic Regulation by Astrocytes”
Tuesday, March 6 th	<u>Janice Urban, Ph.D.</u> Department of Physiology & Biophysics Rosalind Franklin University	“Stress Resilience and the Amygdala: A Role for Neuropeptide Y”
Tuesday, March 20 th	<u>Nicholas Graziane, Ph.D.</u> Department of Anesthesiology and Perioperative Medicine and Pharmacology Pennsylvania State University	“Neural Circuits that Encode Opioid-Associated Contexts”
Tuesday, April 3 rd	<u>David Morilak, Ph.D.</u> Department of Pharmacology University of Texas Health Science Center San Antonio	“Cognitive Flexibility in the Rat Prefrontal Cortex: Models of Pathology and Therapeutic Efficacy”
Tuesday, April 24 th	<u>Andrea Tedeschi, Ph.D.</u> Department of Neuroscience Ohio State University College of Medicine	“Axon Regeneration: Are the Processes of Elongation and Synapse Formation at Odds with One Another?”
Tuesday, May 1 st	<u>Erik Musiek, Ph.D.</u> Department of Neurology Washington University School of Medicine in St. Louis	“Circadian Clocks and Neurodegeneration”
Tuesday, May 8 th	<u>David Baker, Ph.D.</u> Department of Biomedical Sciences Marquette University	“Evolving Capacity of Coordinated Signaling between Neurons and Astrocytes to Enable Complex Brain Function: Implications for Neuropsychiatric Disorders”

All seminars are held at 3:30 pm in
Schroeder Complex, Room 256
