

The Les Aspin Internship Program

The Les Aspin Program has introduced themes to its semester-long internships. The Spring 2027 semester will focus on the theme “Health, Wellness, and Sustainability.” During their time in Washington, DC, students will explore healthcare policy, climate and environmental issues, and the UN Sustainable Development Goals. ***Students can sign up for BISC 4986 and gain internship credits. These credits can fulfill the BISC elective, and if we approve it, it can fulfill ESSV2, with MARQ 3929.***

Program information is available at <https://www.marquette.edu/les-aspin/les-aspin-dc.php>.

Students with questions may contact ***Ally at alexandra.glasford@marquette.edu***. You can begin planning this Fall for participation next spring. Plan early for this with your advisor! Students can also contact Dr. Makky at Khadijah.makky@mu.edu in the Department of Biomedical Sciences if you have further questions.
