Mr. Chris Lambrou
CIO of Metro MLS, Chair of IEEE Milwaukee Section

ABSTRACT: Lead an engaging, informative, and interactive conversation about the Institute of Electrical and Electronics Engineers (IEEE). This discussion will cover the history of IEEE and the Milwaukee section which started in 1910! Membership discussion will focus on lifepath goals, including professional leadership efforts, student/associate member, SR member, and the ultimate goal of fellowship. A look at our local society chapters and affinity groups. Including Magnetics, Electromagnetic Compatibility Society, Computer Society, Women in Engineering, Engineering in Medicine and Biology Society, Power and Energy Engineering Society, Education Society, and many more.

BIOGRAPHY: Chris Lambrou - CIO - Metro MLS (Wauwatosa, WI). A people-centric leader, fascinated with real estate technology and its powerful role throughout industries, business needs, and everyday lives. 25 years of MLS management experience, award-winning software architect, customer service activist, data science practitioner, an accomplished musician (in his own mind), baseball enthusiast, and father of two (the most challenging task of all!). CIO at Metro MLS (Milwaukee, WI) - senior executive carrying the company vision on technology, business strategy, outreach, and governance goals. Chris is a schooled software engineer (Morton College) at heart who was thrust into the executive side to help an industry (real estate) at a national level. His current passion is working with other leaders on a push for the urgent need for AI policy.
